

MOSO[®]
flexbamboo
flexible and
colourful

flexbamboo

MOSO® Flexbamboo is the name for flexible bamboo: instead of gluing & pressing bamboo strips, the strips are connected by fabric on the backside. In this way, **beautiful (curved) surfaces** can be created. Flexbamboo is an **economical, aesthetical** and **healthy** finishing material that can be used for **flooring, walls, ceilings, cabinets** or **furniture**. For flooring applications a latex backing is applied, which makes it very comfortable to walk on. There are two different styles: **solid strip** and **veneered strip**. Flexbamboo comes in rolls with several standard sizes and is finished with a **high quality LED cured oil**. Apart from the seven **trendy colours** in the standard assortment, any other colour can be applied **on demand**. Likewise, the rolls can be cut **to any required width and length** – fitting the exact customer's need. Because of the flexibility, prefinishing, custom sizes and limited thickness, Flexbamboo can be **easily installed** saving costs and time.

discover the flexbamboo benefits

economical

Compared to other wood and bamboo covering materials, Flexbamboo comes at a considerably lower price without losing the bamboo charm.

easy to install

Flexbamboo can be handled easily and installed quickly because of the custom sizes, limited thickness and flexibility.

sound absorbing

Flexbamboo flooring will reduce contact noise because of the latex backing.

healthy

With a toplayer purely made from the natural resource bamboo, Flexbamboo is anti-static, anti-allergic, and has low indoor emissions.

eco-friendly

Made from the fastest growing plant on earth, Flexbamboo is a natural and sustainable substitute for regular synthetic covering materials.

natural look & touch

Inspired by nature, Flexbamboo is not only a conscious choice but also a stylish one.

endless choices

Flexbamboo is available in a large variety of colours with a high quality LED oil finish. On demand it can be produced in any colour and size, fitting the exact need of the customer.

warranted quality

Flexbamboo is a high quality material and comes with a product guarantee of 10 years.
