

MOSO® Bamboo N-durance Outdoor Decking

accessories

MOSO® Fasteners

With these fasteners MOSO® Bamboo N-durance Decking can be easily installed. When installed correctly there will be 5-6 mm gaps between the boards. The fasteners are supplied with matching stainless steel screws (square bit).

For installation on aluminium sub frame joist (not provided by MOSO®), special screws are available.

cleaning & maintenance products

Under the influence of wind, rain, sun and snow the decking will weather. MOSO® recommends to maintain MOSO® Bamboo N-durance Decking with Sikkens maintenance products, depending on the product installed. The silicon carbide broom and machine disk are perfectly suited to clean and smooth the decking surface of Bamboo N-durance and to remove splinters due to the capability to sand the surface in addition to cleaning it.
