

MOSO® Bamboo Outdoor Decking

Cleaning & maintenance

Maintenance & cleaning products

Under the influence of wind, rain, sun and snow the decking will weather. MOSO® recommends treating and maintaining the finished decking with Sikkens maintenance materials. It is recommended to treat the unfinished decking with Sikkens Cetol WF 771 right after installation. The silicon carbide broom and machine disk are perfectly suited to clean and smooth the decking surface of Bamboo X-treme® or Bamboo N-durance® and to remove weathered fibres and splinters. An exterior wood cleaner, like Woca Cleaner, removes dirt without damaging the surface, which is necessary before a maintenance treatment. MOSO® recommends to apply the saturator Sikkens Cetol WF 771 for maintenance for both Bamboo X-treme® and Bamboo N-durance® Decking. The saturator preserves the beautiful brown or caramel colour of the materials. Additionally to the saturator, the Sikkens Primer should be used on Bamboo N-durance® material if it has been sanded or on unfinished boards to provide a better protection.

MOSO® Bamboo X-treme® Outdoor Decking

Product Code	Material
SEALER-05	Sealer for ends of boards 250 ml
DISK-02	16" Silicon carbide disk
BROOM-02	Silicon carbide broom
CLEANER-WOCA-01	Woca Exterior Wood Cleaner 2.5 ltr
SATURATOR-SIK01	Sikkens Cetol WF 771 Ipe colour 10 ltr
SATURATOR-SIK02	Sikkens Cetol WF 771 Ipe colour 2.5 ltr
SATURATOR-SIK04	Sikkens Cetol WF 771 Savanna colour 2.5 ltr

MOSO® Bamboo N-durance® Outdoor Decking
